[Despatch Abstract.]

Grow More Food--New Well Subsidy Scheme, 1947-48--Completion of wells--Time extended till 30th June 1949.

GOVERNMENT OF MADRAS..
Abstract.

GROW MORE R... New Well Subsidy Scheme, 1947-48--Completion
of wells--Time extended till 30th June 1949.

REVENUE DEPARTMENT..

G.O.MS.NO.2869

dated/the 1st December 1948.
Read the following .

G.O.Ms.No.518, Revenue dated the 1st March 1947.

G.O.No.689, Revenue dated the 25th March 1948

From the Board of Revenue, Reference V. Spl. No.4400/48-1,
dated the 4th November, 1948.

ORDER:

Under the existing orders, the last date for the completion of wells under the 1947-48 New Well Subsidy Scheme was the 30th of September, 1948. The conversion of the loan given under the scheme into a ~~WILLIAM~~ ~~XXX~~ ~~XXXXXXXXXX~~ ~~XXXXX~~ ~~IX~~ subsidy is dependent on the satisfactory completion of the well within the prescribed time. It has been brought to the notice of the Government that many of the wells could not be completed before the 30th of September, 1948 due to a variety of reasons. The Board of Revenue therefore recommended that extension of time be granted till the 30th June, 1949. The Government accordingly direct that the time for completion of works under the New Well Subsidy Scheme, 1947-48 be extended till the 30th June, 1949.

2. The extension of time granted in paragraph 1 above is subject to the condition that earnest attempts will be made from now on by the ryots who have taken loans to sink wells. The Government accordingly direct that in every case in which no progress in the sinking of the well is shown by the end of January, 1949, the amount of the loan should be recovered summarily from the grantee without waiting for any further instructions from the Government.

3. The Government desire that the Board of Revenue should impress on the special staff employed in connection with the well Subsidy Schemes the great importance attached by the Government to the satisfactory and timely completion of the wells sanctioned under the Schemes. A special drive should be undertaken by the staff in order to induce the grantees of loans to commence work at an early date and to complete the same within the extended time. It is to be noted on this work that the failure of a large number of grantees within their jurisdiction to complete the works in time will be regarded as a reflection on their work.
